Metabolizable Energy	380 kcal/100g

Feeding schedules are merely guidelines to feeding your dog at a specific age with a specific diet. Considering activity, the environment and the fact that all animals are different, changes can be made to the amount you feed your pet, whether it's more or less. Please feel free to contact us if you are uncertain about the amount to feed your pet.

Recommended daily-feeding amount.

Expected Adult Weight	Your puppy's age in months				
	2 - 4 Months	4 - 6 Months	6 - 9 Months	9 - 12 Months	13 - 18 Months
1kg - 5kg	35g - 110g	45g - 125g	40g - 115g	35g - 115g	45g - 130g
5kg - 10kg	110g - 155g	125g - 205g	115g - 200g	115g - 190g	135g - 220g
10kg - 20kg	155g - 250g	205g - 335g	200g - 320g	190g - 315g	215g - 355g

Pregnant or Lactating Dogs Disclaimer

Body mass	Amount to feed per day
1kg - 5kg	50g - 145g
5kg - 10kg	145g - 225g
10kg - 20kg	225g - 400g

Lactating mothers need to feed more to ensure that they get in enough nutrients to produce enough healthy milk for puppies. Please ensure that lactating mothers stick to this feeding schedule to prevent nutritional imbalances and a shortage in calcium levels of the milk they produce. Ensure that your dog has access to clean fresh water at all times.

Feed up until 18 months of age.
